***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-18 are rejected under 35 U.S.C. 102(b) as being anticipated by :Liquid Crystal Compositions, Method and Devices", XP002264647, *Research Disclosure*, 12512:14-16 (1974), which discloses an ionic dopant for use in a smectic A liquid crystal composition, said ionic dopant comprising a sulfur-containing anion with a random cation, each of which is inclusive of those of the instant claims such as an ammonium cation.

Claims 1-18 are rejected under 35 U.S.C. 102(b) as being anticipated by Bucher et al. (U.S. Patent No. 3,963,638).

Bucher et al. discloses that the dynamic scattering properties of a nematic liquid crystalline composition having a negative dielectric anisotropy are improved by adding an organic salt containing a sulfonate anion. The dopant produces scattering in normally non-scattering negative dielectric anisotropy liquid crystals and reduces the threshold voltage for those already exhibiting scattering properties.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Geraldina Visconti whose telephone number is (571) 272-1334. The examiner can normally be reached on 8:00am to 4:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Cynthia Kelly can be reached on (571) 272-1526. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system.
